Company Profile

Giant Spoon Marketing Ltd is a full-service creative advertising company founded in 2010 and headquartered in Los Angeles, USA. The company focuses on helping brands build deeper connections and interactions with consumers through innovative strategies, creativity and media methods. Giant Spoon's core philosophy is to combine creativity with technology, break through traditional advertising methods, and drive brand growth in a groundbreaking way. Their work is not limited to advertising, but also includes digital marketing, brand strategy, social media management, content creation and other fields. The company customizes marketing plans that meet customer needs through data-driven decision-making and user insights. Giant Spoon's customers include some of the world's well-known brands, such as Netflix, Reddit, Walmart, Disney, Spotify, etc. The company has helped these brands create many successful cases in the market and achieved excellent results. In order to meet the needs of global customers, Giant Spoon has rich experience in many fields such as film and television, entertainment, technology, consumer goods, and automotive industry. In early 2025, Giant Spoon was appointed by Autelexa as its first creative agency responsible for global brand and creative activities, which also marks the increasingly important position of Giant Spoon in the creative advertising industry. Overall, Giant Spoon is a leading advertising company that integrates creativity, strategy, technology, and media, dedicated to helping brands better connect with their target consumers through innovation and practice.

Company Business

GSM is a diversified advertising company. We are constantly committed to advertising and media promotion. So far, we have long-term cooperation with advertising and film and television groups in 60 countries, including the United Kingdom, Singapore, Malaysia, Japan, Brazil, India, the United Arab Emirates, the United States, France, Spain, etc. Through close cooperation with these advertising and film and television groups, we can better understand market needs and tasks and improve local employment issues. In terms of advertising, GSM is committed to providing customers with diversified and high-quality services. We have established extensive cooperative relationships with many advertising groups and independent film and television companies around the world, while improving the market evaluation and source of each advertisement. Achieve mutual benefit and win-win results for both parties. We believe that by working with so many high-quality groups and manufacturers, we can deeply understand consumer needs and trends, and provide more accurate advertising strategies to help maintain competitive advantages. Since we have reached preliminary cooperation with major advertising and film and television groups around the world, this enables us to provide customers with comprehensive advertising creativity and services. formulate new forms of brand communication to help brands stand out in the market. Ultimately, we hope that through such cooperation, we can not only meet our customers' advertising and media experience, but also provide employment directions and solve employment problems for the Indian people.

Business strategy:

Digital marketing and social media strategy: The company develops precise digital marketing strategies and social media management services to help customers achieve broad exposure and consumer interaction on social media platforms.

Brand planning and communication: Focus on brand image design and communication strategy to ensure accurate delivery of brand value and enhance customer brand awareness and influence.

Content creation and video marketing: Use creativity and high-quality content production to help brands establish deep connections with target audiences through diversified methods such as text, pictures, and videos.

Omni-channel marketing: Through the integration of online and offline methods, help brands establish effective communication with consumers at multiple contact points.

Market research and consumer insights: Through in-depth market research, accurately capture consumer needs and market trends, and provide data support and decision-making basis for brands.

Public Welfare

GSM has joined hands with the Indian Red Cross to carry out charitable aid activities, dedicated to bringing hope and light to people in poor areas. This far-reaching public welfare action not only demonstrates GSM's sense of social responsibility as a corporate citizen, but also demonstrates its firm determination to bring warmth to vulnerable groups around the world.

The large-scale aid project jointly launched by GSM and the Indian Red Cross covers medical care, education, and basic living guarantees for several impoverished villages. Through these selfless help, GSM and the Indian Red Cross have jointly improved the living conditions of thousands of poor families and ignited their hope and belief in the future.

GSM is not only a material donor, but also a spiritual supporter, committed to promoting social equality and fairness through its actions. In addition to material and financial assistance. Whether it is helping children receive education or providing medical insurance for families, GSM always adheres to the corporate philosophy of "caring for others and giving back to society", conveying the power of selfless dedication and love to the society.

GSM is not just a company, but a vast forest.Every member is a tree in this forest.We are rooted in the soil of social responsibility,
supporting each other and growing together.GSM helps families in difficult situations,
just as every tree in the forest provides oxygen and vitality to the earth

GSM and India, create a better tomorrow

We actively participate in and support wildlife conservation projects around the world. Whether it is helping to restore habitats or participating in anti-poaching activities, GSM always adheres to the principle of respecting life and strives to ensure that wild animals can reproduce freely in the natural environment. By cooperating with major environmental protection organizations, we hope to establish a safer and more sustainable living space for wild animals and plants. We also invest 8-10 million US dollars each year in wildlife protection charity.

As a responsible enterprise, GSM is well aware that protecting the environment is not just a slogan, but an action. We actively participate in social welfare activities such as afforestation, environmental protection publicity, and ecological restoration, and work hand in hand with all walks of life to contribute to the restoration and development of the earth's ecosystem.

Protecting nature is everyone's responsibility. GSM will work with you to create a green future.

At GSM, we always put the physical and mental health of our employees first. We know that the work performance of our employees is closely related to their happiness in life. Therefore, the company provides abroad physical and mental health support for every employee, and organizes employees to travel to various countries, outdoor dinners, and outdoor sports 2-3 times a year. We pay special attention to finding a balance between work and life. For this reason, we have carefully designed a number of benefits including travel and gatherings to improve the work efficiency and happiness of employees, so that employees can fully enjoy the beauty of life after busy work.

No matter which city or country you are in, GSM always welcomes you to join us!

According to the World Bank, poverty rates in sub-Saharan Africa remain high. About a quarter of the African population lives in extreme poverty, with over 40% of people living in poverty. The proportion of poor people in some countries is even higher.

Unemployment rates in Africa, especially among young people, are at a relatively high level globally. Due to the single economic structure, insufficient job creation capacity, and the lack of a connection between the education system and the labor market, many young African face difficulties in finding stable jobs.

Between 2025 and 2026, GSM will launch a comprehensive recruitment plan with a lofty mission, committed to providing employment opportunities for 1 million African youth, helping them achieve a stable income, and thus promoting local economic growth, enhance talent self-sufficiency and social progress in Africa.

In the great journey of the next three years, GSM will use its innovative spirit and technological platform with first-class talent and global vision, creating 1 million new jobs. This plan will not only bring stable income and development opportunities to African families, but also open the door to a broader future for them. Behind every job, there is the transmission of hope and the improvement of quality of life, injecting a continuous source of vitality into the prosperity and stability of the African continent.

GSM firmly believes that creating opportunities and changing destiny are the core of global development. Through the grand and meticulous blueprint, we hope to create and provide 1.1 million jobs in Africa, but also make positive contributions to the common prosperity of humanity and sustainable development. We are in hand with our African compatriots to welcome a better future and move towards new glory.
